AUTOMOTIVE INDUSTRY

COMPACT TEST TOOL
FOR QUALITY CONTROL
AND TESTING

About Winmate

Founded in 1996, Winmate Inc. is a pioneer in rugged computing technology. Winmate has provided business leaders worldwide with reliable, robust solutions for the most challenging industrial conditions for over two decades. From R&D to manufacturing to in-house testing, Winmate Inc. manages the entire product development process with ready-made products available for quick deployment. Today Winmate's innovative approach has helped countless enterprises at every level with equipment automation and seamless Industrial Internet of Things (IIoT) integration.

From the industrial display, panel PC, HMI, embedded systems to rugged mobile devices, Winmate caters to industries ranging from transportation and logistics to marine and military, railway, oil, and gas, and provides customization services to create a unique solution for specific customer requirements.

The Winmate Difference

Innovation and Ruggedness

With innovation and ruggedness, our products are designed to meet the requirements of vertical markets' environmental standards.

Engineering Intelligence

We are committed to maintaining the highest standards in engineering excellence to ensure our products deliver reliability, durability, and optimized performance.

Quality Commitment

Quality assurance and entire engineering processes are conducted in-house. It is why we invested significantly in our state-of-the-art testing facility with additional global support.

“
**INNOVATIVE
TECHNOLOGY FOR
OPERATIONAL
EXCELLENCE.**
”

Efficiency

Our team is committed to efficiency and maintaining the shortest possible development cycles. The whole development process is conducted in-house to achieve the market advantage in speed and quality from design to testing.

Reliability

Reliability, service, and support are part of our foundation. Every product scrutinizes industrial standards testing to verify electrical, mechanical, thermal, and firmware design performance.

Customized Solutions

Years of experience allow Winmate to offer customized solutions for different applications.

From product design to accessories, our engineering team designs and support the system integration process.

- CUSTOMIZED CONFIGURATION
- CUSTOM OS IMAGE
- CUSTOM BIOS
- ENCLOSURE DESIGN
- PERIPHERALS AND OPTIONS
- CUSTOM-DESIGNED ACCESSORIES

Technical Know-How

We understand that access to cutting-edge solutions purposely built for their applications is imperative for enterprises operating in rugged or potentially hazardous environments. As a result, Winmate locates its resources from project research and design, software development and customization, product verification and validation, and in-house testing to research and implement the latest technologies available.

The latest technologies we deploy for our rugged products:

- Dry and wet optical bonding
- Panel enhancement for sunlight readability
- Anti-reflection (AR) and anti-glare (AG) glass protection coating
- Light sensor
- Hyper dimming
- Electronic potting
- Touch screen integration: projected capacitive, resistive, or SAW touch
- Waterproof enclosure
- Military EMI and mesh coating
- Wireless capabilities
- Data capture devices integration
- Defroster for ultra-low temperature environments
- Stainless steel SUS 316/ AISI 316
- Shock and vibration resistance
- Wide-range operation temperature

Automotive Industry

Overview

With our increased reliance on computers monitoring car sensors and control systems, the automotive system as a whole must be safety-critical to ensure the safety of the driver, passengers, pedestrians, and other vehicles. To improve the quality and reduce errors in these systems, automotive OEMs and suppliers require the right diagnostic tools to detect and discover any faults in automotive systems.

Our rugged mobile devices include:

- The latest Windows® and Android™ operating system
- Robust wireless communications
- Application-tailored accessories

Winmate rugged tablets are designed to meet the demanding requirements of the automotive industry, providing reliable performance in harsh environments. With features like MIL-STD-810H certification, IP65-rated durability, and wide operating temperature ranges, these tablets are built to withstand shocks, vibrations, and extreme conditions commonly encountered in automotive workshops and manufacturing floors.

Equipped with high-performance processors and versatile connectivity options, Winmate rugged tablets streamline vehicle diagnostics, inventory management, and assembly line operations. Their sunlight-readable displays ensure visibility in outdoor environments, while advanced touchscreens enable seamless operation even with gloves. Additionally, the long battery life supports uninterrupted usage, making them ideal for field inspections and fleet management.

With customizable solutions to integrate CAN bus systems, OBD-II tools, and proprietary software, Winmate rugged tablets enhance productivity and precision in automotive applications, empowering professionals to optimize efficiency and reduce downtime.

Application Story (Rugged Tablet)

Driving Process Improvement in Automotive Industry

Background

From the in-house test equipment on the car production factory floor to workshops and repair centers, Winmate offers car mechanics a new level of convenience. Our fully rugged tablets and mobile computers help perform car diagnostic, check operation instructions, and visualize ongoing test procedures. Modern technology helps to complete complex tasks at a lower cost and better quality, improve Quality Control (QC) at the early stages of production, and achieve higher productivity and cost reductions by using real-time data.

Core Products

- 13.3" Ultra-Rugged Tablet M133WK Series

Main Challenges

- Vehicle-to-device data communication
- The rigor environment of the factory floor
- After-sale service

“ MOBILE DEVICES BRING A NEW LEVEL OF CONVENIENCE, PRODUCTIVITY, AND OPERATIONAL EFFICIENCY TO THE PRODUCTION FLOOR ”

Why Winmate

- Enhanced compatibility with the vehicle system
- Products tailored for the automotive industry
- Ruggedness and durability
- Extended warranty and dedicated customer support

Application: Vehicle Diagnostics

Application Story (Rugged Tablet)

Car Repair Workshop

Background

The car repair stations require portable and yet powerful tools to speed up the inspection's maintenance service and quality. Winmate offers a rugged tablet computer for the workshop to simplify the regular inspections and maintenance. Our innovative and user-friendly robust mobile computing solutions with an optional smart card reader, RFID reader help speed up delivery services and increase customer satisfaction and retention.

Core products

- 14" Windows Rugged Tablet

Main Challenges

- All-in-one device
- Ability to check inventory
- Long working hours for all-day operations

“
**MANAGE
WORKSHOP
INVENTORY
EASILY WITH
ALL-IN-ONE
RUGGED
TABLET
COMPUTERS**
”

Why Winmate

- Rugged design
- Built-in tools for data collection
- Full-day battery life

Application: Car Repair Workshop

Application Story (Rugged Tablet)

To Minimize the Volume of Your Time

Background

When a business car malfunctions, lines call for low recovery time to continue to be successful. To minimize the volume of your time motor vehicles invest in the store, required to offer its own company facility clients along with a modern technology service that accelerated the medical diagnosis.

Conventional business-class laptops pc were actually unqualified the activity, so the client opted for and also investigated units Winmate 13.3" tablet computers for their analysis as well as fixing solution set services. To time they have actually presented greater than 4,500 of their solution packages, along with Winmate Rugged Tablets, to company facilities around the nation as well as handled.

Core Products

- 8.4" Ultra-Rugged Tablet
- 13.3" Ultra Rugged Tablet

“ PROVIDING A BETTER MOBILE COMPUTING SOLUTION. ”

Main Challenges

- High performance processor, delivered in a lightweight tablet form factor, customized and flexible docking system, interface connection, programmable hotkey buttons, wireless communication.

Why Winmate

- In-depth knowledge of the industry combined with in-house engineering
- Extended warranty protection

Application: Quality excellence

Application Story (Rugged Laptop)

Automotive Repair and Calibration

Background

In the fast-paced world of automotive repair and calibration, precision and efficiency are paramount. From diagnosing engine issues to fine-tuning advanced driver-assistance systems (ADAS), technicians face numerous challenges, such as complex diagnostics and handling vast amounts of data, can be overwhelming.

The Winmate 15.6" Rugged Laptop is purpose-built for automotive repair and calibration. Equipped with powerful processors and compatibility with diagnostic software, the 15.6" Rugged Laptop makes complex diagnostics a breeze. Technicians can connect to vehicle onboard systems, identify issues accurately, and efficiently perform necessary repairs.

With its advanced capabilities, Winmate Rugged Laptop helps optimize vehicle performance for improved fuel efficiency and reduced emissions, aligning with the industry's sustainability trends.

Core products

- L156AD - 15.6" Rugged Laptop

Main Challenges

- Complex diagnostics
- Handling vast amount of data
- Long-hour battery and harsh environments

Why Winmate

- Advanced computing solutions
- Remote support capability
- Customization and problem-solving solutions

“TURNING CHALLENGES INTO CALIBRATED SOLUTIONS”

Application: Enhancing Car Diagnostics and Calibration with Winmate L156AD

Application Story (Rugged Laptop)

Integrated Trucking Diagnostic and Repair

Background

Over time, the trucking industry has evolved in operations, marketplace, and technologies. In the USA, the industry has experienced fluctuations throughout the year, impacting manufacturing, business models, and growth.

Trucks now feature advanced technology to meet delivery demands. Some adopt innovative solutions to enhance vehicle functionality, track the supply chain, and build customer trust by sharing journey details.

This ensures minimal downtime if a truck breaks down. To decrease workshop time, dealerships must swiftly conduct thorough vehicle checks. The optimal solution involves digitalizing check sheets and data transfer.

Conventional business laptops couldn't meet the demands. Hence, the customer opted for Winmate 14" Rugged Laptop and 10.1" Rugged Tablet for their cutting-edge automotive workshop.

Core Products

- L140AD-4 - 14" Convertible Rugged Laptop
- S101TG - 10.1" Rugged Tablet

Main Challenges

- Sunlight readability.
- Use in extreme service environments
- High-performance CPU for stable performance
- Long-hour battery for whole-day work

Why Winmate

- Design for uninterrupted operation everywhere
- Device versatility
- Greater comfort with faster performance

“
**RUGGED LAPTOP
AND TABLET

Durability and Performance

The Winmate 14" rugged laptop is designed for automation applications, combining durability, performance, and versatility. Built to withstand harsh industrial environments, it features MIL-STD-810H certification and IP65-rated protection. Powered by Intel® processors, the laptop enables real-time data processing and seamless integration with automation systems, optimizing workflows. Its versatile I/O ports and wireless connectivity ensure easy communication with sensors, controllers, and other devices.

“ INTELLIGENT WORKLOAD OPTIMIZATION. ”

- 13.3 / 14" , 1920 x 1080 LED panel with direct optical bonding
- 12th Gen. Intel® Processor Family – Alder Lake Processor
