

Product Change Notification

Notification No:	DD-R20073101
Affected Model:	BYTEM-123-PC All series and extending SKUs
Subject:	The touch screen of the system is discontinued
Method:	All series of BYTEM-123 will be revised to Version 3.0. The current version will be discontinued

To whom it may concern,

The touch supplier will be end of service and did not offer the last buy order. At the same time, we decided on the replacement of the touch screen and upgraded the panel specification. The comparison table of two panels as following:

Panel model	<i>Old</i>	<i>New</i>
Resolution	1024x768	1024x768
Luminance	350 Cd/m ²	500 Cd/m ²

Furthermore, as the new version of EN50155:2017 comes into force this year, we will also upgrade the system to meet the new version of EN50155. And we promise the upgraded models to keep the outline as same as current products.

Affected Model:

BYTEM-123-PC whole series and extending SKUs

The impact of changing:

- We cannot accept the order of the current BYTEM-123 series once the touch screen is out of stock.
- We suggest you request the new sample unit from us for testing. We can prepare some testing samples after September 2020, and you only must cover the delivery fee.
- If you would like to demand more new sample units, we accept the additional order depended on the material condition.

We apologize for any inconvenience this may cause and please contact your sales representative of iBASE for advance information.

Sincerely Yours

Natalie Chuang
