| PCN Number:  | E230630-02       | Release Date: | Jun. 30, 2023    |
| Affected Product Model   | ST180-25         |               |                  |
| Subject  |                  |               |                  |
| DRAM die version from Micron B-die to F-die in ST180-25.   |                  |               |                  |
| Description of Change  |                  |               |                  |
| 1. Adopt the latest DRAM IC technology by transitioning B-die to F-die.<br>2. Keep the firmware version unchanged.                           |                  |               |                  |
| Recommended Action   |                  |               |                  |
| Current Micron B-die supply is tight, Apacer recommends to qualify ST180-25 with DRAM Micron F-die NAND for better product supply longevity. |                  |               |                  |
