Description of notice to the customer

Darveen will cease production of DPC-9XXXX-10210U products. The reason for making this decision is due to the natural decline in market demand and the fact that the motherboards and CPUs used in these products have been discontinued for more than a year. The subsequent supply will be very difficult. To avoid affecting customer orders, we have made this difficult decision.

Customer impact of change and recommended action:

Darveen will cease production of this series of products. We suggest that you order DPC-9XXXX-1235U for replacement. Please refer to the following comparison table.
