

Product Change Notification

Firmware Version Update for SH250-M242 BiCS5 Products

Release date: June 30, 2026

Dear Valued Customer,

Thank you for your continued support of Apacer products. This Product Change Notification (PCN) is to inform you of a firmware version update for SH250-M242 BiCS5 products. Details of the change are provided in the table below. Apacer will provide all necessary support to ensure a smooth and seamless transition. If you have any questions or concerns regarding this notification, please contact your Apacer sales representative.

PCN Number	E260630-03	Release Date	June 30, 2026
Affected Product Model	SH250-M242 BiCS5 products		
Action Levels	☐ Critical: Immediate change required ☒ Advised: Implementation strongly recommended ☐ Recommended: Optional, but suggested ☐ Informational: No immediate action required		
Subject of Change			
Firmware Version Update for SH250-M242 BiCS5 products			
Description of Change			
Apacer has updated the firmware version from SFMP7150/SFMD7130 to SFMP7160/SFMD7140, respectively, with the following changes: 1. Improved the handling flow for small data sizes. 2. Modified the GC trigger condition. 3. Improved the DLMC firmware update process.			
Recommended Action			
Apacer will continue to supply SH250-M242 BiCS5 products with the existing firmware. However, we recommend qualifying these products with the latest version for improved compatibility and support.
